Flash: Dividend proposal with a 2.9% yield

Oma announced that, at the Ordinary Shareholders' Meeting to be held on April 21, the Board of Directors will propose the payment of a cash dividend of MXN 2.3 billion, which would be equivalent to a ratio of MXN 5.96 per share and, therefore, a yield of 2.9% at current prices. This will be paid in two installments: the first one for MXN 1.8 billion (MXN 4.66 per share) no later than June 30, 2023 and the second one for MXN 500 million (MXN 1.29 per share) no later than September 30 of this year.

Positive implication: The proposed distribution, in line with our estimate (MXN 6.00e), is in addition to the extraordinary dividend paid by the company on March 2 (MXN 3.72 per share with a 2.1% yield). This reflects significant earnings increases, continued cash flow generation and financial strength. Thus, we reiterate the stock in our top picks as the positive outlook strengthens due to the additional boost in passenger demand from nearshoring, being the group with the greatest exposure to destinations where the most investment announcements have been made.

Guide for investment recommendations.

	Reference
BUY	When the share expected performance is greater than the MEXBOL estimated performance.
HOLD	When the share expected performance is similar to the MEXBOL estimated performance.
SELL	When the share expected performance is lower than the MEXBOL estimated performance.

Even though this document offers a general criterion of investment, we urge readers to seek advice from their own Consultants or Financial Advisors, in order to consider whether any of the values mentioned in this report are in line with their investment goals, risk and financial position.

Determination of Target Prices

For the calculation of estimated target prices for securities, analysts use a combination of methodologies generally accepted among financial analysts, including, but not limited to, multiples analysis, discounted cash flows, sum-of-the-parts or any other method that could be applicable in each specific case according to the current regulation. No guarantee can be given that the target prices calculated for the securities will be achieved by the analysts of Grupo Financiero Banorte S.A.B. C.V., since this depends on a large number of various endogenous and exogenous factors that affect the performance of the issuing company, the environment in which it performs, along with the influence of trends of the stock market, in which it is listed. Moreover, the investor must consider that the price of the securities or instruments can fluctuate against their interest and cause the partial and even total loss of the invested capital.
