

José de Jesús Ramírez

Senior Analyst
Quantitative Analysis

@JJ_RamirezM

He has more than 8 years of work experience in macroeconomics, econometrics, data analysis and quantitative models. Prior to joining GFNorte, he served as Head of Department of Univariate Estimates at INEGI, in the Timely Estimation of the Quarterly GDP, and as Macroeconomics and Econometrics professor for more than 4 years.

He holds a degree in Economics from the Universidad Veracruzana with first-class honors, a Master's degree in Business and Economic Studies from Universidad de Guadalajara, and a Master's degree in Statistical Analysis and Computing at CIMAT. He has been awarded scholarships by CONACYT and CONACYT-INEGI for both graduate programs.
